

**EROSION AND SEDIMENT CONTROL APPLICATIONS DROP OFF LOCATION CHANGE**

Water Resources is committed to creating efficiencies for our stakeholders and Applicants. Stormwater Pollution Prevention, Water Quality Services (WQS) has moved the location of the Erosion and Sediment Control application drop off to the shipping and receiving doors, located at the East end of the Water Centre.

By doing so, this provides Applicants a location that is easy to find, has ample parking, signage, and staff dedicated to assistance. When dropping off an application, ring the buzzer and a staff member will assist you with the courier package.

Packages should be addressed as follows:

Water Centre  
625 – 25 Avenue SE  
c/o Stormwater Pollution Prevention  
Calgary, AB T2G 4K8

The Water Centre

Shipping and Receiving Entrance

Questions pertaining to the process can be sent to:
